

Five Star recognition for RSB Employment Services

Earlier this week, it was announced that RSB Employment Services had been awarded a 5-Star rating by the Federal Government's Disability Employment Services program, administered by the Department of Social Services.

Funded organisations (such as RSB Employment Services) are regularly rated on a 1-to-5 scale, with 5 being the highest score available.

The accolade makes the RSB one of only two sites for the blind and vision impaired, in Australia, to currently hold a 5-Star rating. It also places RSB Employment Services among the top 8% of all Disability Providers in the country.

This 5-Star rating is deserved recognition for RSB Employment Services outstanding work in placing 150 blind or vision impaired clients into employment, under their current contract.

RSB Employment Services has gained a reputation for thinking outside the box when seeking employment opportunities for their clients. **Interview opportunities are available with people now working in a wide range of roles, not usually associated with the blind and vision impaired, including chefs, baristas and many more.**
