

Industrial Services Update

January 2016

Unearthing world-class success

Passionate about collaborating with local businesses, RSB Industrial Services has developed a strong partnership with manufacturing company, Coiltek.

Coiltek produce a world-class range of metal detectors and coils that they sell to other manufacturers, such as Codan.

Nearing 12 months since Coiltek partnered with RSB Industrial Services, both businesses have been working together to produce world class metal detectors, sold throughout Australia and exported around the world.

Based in Gilles Plains, RSB Industrial Services provides employment to South Australians who are blind or vision impaired, or who have other disabilities.

RSB Industrial Services staff produces a variety of plastic mouldings for Coiltek, primarily round tops, bases and skids for metal detectors. They range from 6" up to 22" in black, Terracotta and Merino colours.

Peter Nannini, RSB Industrial Services Sales Consultant, says it has been a privilege to contribute to the production of such a high-quality product range.

"While the product range already exists, the RSB has helped to fine tune the quality of the metal detectors," he says.

According to Peter, the RSB is dedicated to helping businesses, like Coiltek, develop their product. "We look forward to discovering more of what we can do to assist Coiltek in producing other world-class products."

Our specialist staff are available to discuss your needs and provide you with a competitive quote. Call RSB Industrial Sales on (08) 8417 5600 or visit our website www.rsb.org.au

Our service

Since 1884, the RSB has been providing employment for South Australians who are blind or vision impaired. Today, RSB's Industrial Services site at Gilles Plains employs more than 70 people.

Our goal is to provide your business with efficient, cost effective and high quality solutions that will save you time and money.

Assembly and packaging

The RSB Industrial Services site is specially equipped to provide assembly and packaging services, incorporating our HACCP accredited clean room facility. No job is too big or small for the RSB to produce on time and to your complete satisfaction.

At the RSB, we thrive on meeting our customers' needs and supplying a quality product.

Thermoforming

The RSB offers a complete service for thermoformed (vacuum) and pressure formed products, including clamshells,

food grade containers and folded and heat sealed blisters.

We know you will be happy with the end result because we supply you with a prototype before production commences.

The complete solution

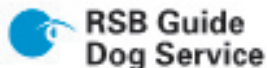

The RSB's wide range of assembly and packaging services include:

- Manual bag and box filling
- Sorting
- Collating and labelling
- Shrink-wrap packaging
- Heat sealing
- Blister packaging
- Die cutting
- Sonic welding
- Thermoforming (vacuum) and pressure forming

We are experienced working with thin and thick gauge materials including PVC, APET, HIPS and ABS.

Our specialist staff are available to discuss your needs and provide you with a competitive quote.

Call RSB Industrial Services on (08) 8417 5600 and Peter or Mark will be able to discuss your needs, or visit our website www.rsb.org.au to view the RSB Industrial Services Catalogue
