The RSB provides clients with a unique experience to view, test and select their own equipment from a range of Adaptive Technology Suppliers. The RSB does this to ensure that the client has the choice of product that best meets their individual needs.

The RSB works with a range of Adaptive Technology Suppliers and can purchase the equipment on behalf of the client or enable the client to purchase directly from the supplier.

All repairs, maintenance and warranties are directly with the Adaptive Technology Supplier. The RSB takes no responsibility for repairs, maintenance and warranties of equipment.

Please note - Not all services are available at each office location. Contact your local RSB office for information on the services offered near you.

Electronic Magnifiers

Electronic magnifiers are aids that consist of a camera and monitor, although a TV or computer screen may be used in place of the monitor.

The magnification level is much greater than a hand magnifier and often combines a choice of foreground and background colours. Available in desktop or portable variations.
